PROFILE SUMMARY

Java Full Stack Developer handling database to frontend UI. I spend most of my time working with **Java, Spring Boot, and modern real world project** to making applications. I enjoy solving tricky technical problems and collaborating with teams to deliver solid, user-friendly software on time.

SKILLS

Programming Language	JAVA, Python
Backend Development	JDBC, Spring Boot, Spring Data JPA (Hibernate), REST APIs, JWT Authentication, Spring Security
Frontend Development	HTML, CSS, JS, React
Database	MySQL, MongoDB
Tools & Platforms	Git, GitHub, Postman, Vite
Testing	JUnit5
Coursework	DBMS, OS, DSA, Software Engineering, AI, OOPs

EDUCATION

BCA

Science (Autonomous) College, Hinjilcut | 2024-2027
CGPA: 9.52

Higher Secondary (12th)

Science College Konkorada | 2022-2024
Percentage: 66.67%

EXPERIENCE

Junior Java Developer Intern

YuvaIntern | Remote

May 2026 – Jun 2026

Completed a project-based Java Development internship, building applications using Core Java, OOP, MySQL, and REST APIs while strengthening problem-solving, debugging, and software development skills.

PROJECTS

Java Banking System (Console-Based Application) | <https://github.com/sonaliacharya13/BankingSystem.git>

Allows users to create accounts and perform operations like deposit, withdrawal, and balance checking through a menu driven interface.

Tech Stack: OOP, Core Java, JDBC, MySQL.

Student Placement Management System API | <https://github.com/sonaliacharya13/student-placement-management-system-api.git>

Developed a backend application using Java, Spring Boot, and REST APIs to manage student placement data, company details, job opportunities, and application tracking. Improved data handling through CRUD operations and structured database management.

Tech Stack: Spring Boot, MySQL, Maven, Postman, Hibernate

Portfolio Website | <https://portfolio-8t5q.vercel.app/>

Built a responsive personal portfolio website to showcase projects and skills. Features: Responsive design, project showcase, contact section, smooth navigation. GitHub: <https://github.com/sonaliacharya13/portfolio.git>

Tech Stack: HTML, CSS, JavaScript, React, Vite.

CERTIFICATIONS

Software Engineer Intern – HackerRank | Jun 2026

Building AI-Powered Search with MongoDB Vector Search Fundamentals – MongoDB

IBM Data Science Professional Certificate – IBM (Coursera)

Introduction to HTML5 – University of Michigan (Coursera)

Python Course – GeeksforGeeks
